**Grandfather
Yellow Horse Man**

Jill and Charlie Henry

The Autumnal Equinox Event carries the energy of appreciation, harvest, and thanksgiving. This event will offer a group pot luck supper, so bring your favorite dish and then will be followed by amazing Speakers whose words will forever change your life as well as entertain you. Followed by a group labyrinth walk and the "Rite of Appreciation".

Logistics of the Event:

The **Saturday afternoon event** offers:

- an opportunity to experience the magical Labyrinth Park of **Jill and Charlie Henry**;
- experience the crystal skulls that are linked to the prophecies of a future golden age of peace. On this day you will have the chance to meet crystal skull explorers **Joshua, Katrina** and their amazing "crystal kids". They will share with you profound stories of their personal experiences with the crystal skulls and why you should have one of your own;
- receive a message from **Yellow Horse Man**, "Wisdom of the Ancient Voices", Preparing your Spirit for what is yet to come. This topic will include where we are now and where we need to be in the year 2012 and beyond; and
- meet paranormal researchers **Missy and Ron Hill** and hear their unbelievable stories related to exploring UFOs and their experience with the Brown Mountain Lights. Additionally they will discuss their special equipment they use for their research called "night vision goggles" which you will have a chance to experience later in the evening.
